

How do remain Active and Qualified as Director?

By acquiring a Director Package, you remain:

- **Active** for one (1) year, and
- **Qualified** to receive Commissions from all the Programs for 30 days.

Once the 30 days have passed, it is necessary for you to make a monthly purchase of any of our Qualifying Products for a value of US \$30 in order to receive Commissions from all the Programs.

What happens if you do not remain Qualified?

When your Qualification expires, not only do you stop receiving Commissions as National or International Director, after 60 days of not making a purchase of any of the Qualifying Products, **your hierarchy becomes automatically down-graded to Regional**. From this moment onwards, you will have 15 days to make a purchase and recover your previous position, always and when your Directory is Active!!! In the case a purchase is not made within this time, your hierarchy will remain as Regional Director and you will have to restart your Career from the beginning.

Active: you remain active as Director during the valid period of the Director Package.

Qualified: you remain qualified to receive commissions and bonuses when you acquire products on a monthly basis, which enables your category.
